## November's Monthly Newsletter

Welcome to our newsletter! We are thrilled to share with you the latest developments in our mission to make a positive impact in our community.

### Boston Partnership Fund Refurbishment

During this month a variety of works have been in progress both inside and outside the centre.

We're pleased to share that the new fencing has been installed at the rear of the property, along, with two secure gates that meet fire exit requirements. One of these is a double gate designed to provide easy wheelchair access.

This improvement will enable us, as a charity, to generate additional income through hiring out the outdoor space, while also allowing more organisations and community groups to make use of the area - especially during the warmer months.

Inside the centre, new interior blinds have now been installed on the ground floor, including blackout blinds

In the Hybrid Conference Room, and any blinds upstairs that required replacement have also been updated.

All of the toilets in the centre are now fully operational - including upstairs facilities, downstairs ladies' and gents', and the new relocated accessible toilet, with only a few minor adjustments remaining.

New flooring work will begin on the rear staircases at the back of the centre on Monday 8<sup>th</sup> December 2025. Once both staircases have been completed, the contractors will return to install brand new vinyl plank flooring in the reception area. This will only take place after the new reception roof and framework have been fitted, which is expected to start in January 2026. These improvements

to the reception roof and framework will help create a more comfortable environment, providing warmer winters and cooler summers, for service users, volunteers and employees.
